

# REVOLUTIONIZING OFFSHORE OPERATIONS

WITH AI-DRIVEN SAFETY AND  
EFFICIENCY SOLUTIONS

Video Analytics Solution

## Enhancing Safety and Operational Excellence in the Oil & Gas Industry through AI and Video Analytics

The oil and gas industry, especially offshore drilling, faces challenges in safety, efficiency, quality control, and equipment maintenance.

With advancing technology, solutions like **AI** and **Video Analytics** provide transformative tools for monitoring operations, predicting equipment failures, and enhancing safety.

These innovations reduce human error, optimize production, and improve overall efficiency, reshaping the industry’s approach to safety and productivity.

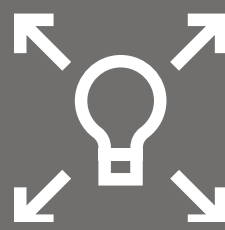

### Real-Time Safety Monitoring in Offshore Facilities Using Video Analytics

**Core Benefits:**  
Enhances Security  
Improves Operational Efficiency  
Strengthens Decision-Making

**Tailored Solutions for Seamless Integration**  
Thorough Assessment of Platform Needs  
Selection of Appropriate Technological Solutions  
Seamless Integration with Existing Processes

**End-to-End Expertise**  
Initial Design  
Implementation  
Commissioning

## Delivering Excellence in Oil and Gas: Onshore and Offshore

**Radix’s projects focus on:**  
Governance, Operational Intelligence,  
Digital Enablement, Risk Management  
and Infrastructure.

**Our Solutions Include:**  
Feasibility studies and  
Clear development plans.

**Leveraging Advanced Technologies:**  
Real-time Data, Machine Learning  
and Automation.

**Key Areas of Impact:**  
Maintenance, Asset Management,  
Safety, Environmental Management  
and Production Optimization.

### Who is Radix?

Radix is a global technology solutions company that delivers the most innovative industrial solutions to scale and accelerate your transformation journey.

As lifelong partners, we turn challenges into opportunities.
